**You are about to purchase a product that is not simple and may be difficult to understand.**

## What is this product?

<b>Type</b>	This product is a derivative contract in the form of an option relating to currencies.
<b>Objectives</b>	<ul style="list-style-type: none"> <li>The objective of this product is to give you the right, but not the obligation, to exchange an agreed amount of one currency for another currency at a fixed rate (strike price) on a specified future date (expiry date), provided that the right is activated due to a barrier event.</li> <li>The product achieves its objective by you and Nordea agreeing to the terms of the bought FX Single Barrier Knock-In Option, under which (1) you pay an option premium to Nordea and (2) Nordea grants you the right, but not the obligation, to exchange an agreed amount of one currency for another currency at a fixed rate (strike price) on the expiry date provided a barrier event has activated the right. A barrier event occurs if at any time during the barrier window the exchange rate trades at or beyond the agreed barrier level. If a barrier event occurs your right is automatically activated.</li> <li>The barrier window can be either (1) from trade date to the expiry date (American) (2) a different pre agreed time period (Window) or (3) the expiry date (European).</li> <li>In order to purchase this right, you will be required to pay an option premium. This right, if activated due to a barrier event, can be exercised on the expiry date and if exercised, Nordea is obliged to exchange the agreed amount of one currency for another currency at the strike price. The actual payments of the agreed amounts will take place at a specified date (settlement date) after the expiry date.</li> <li>If the right is not exercised (whether as a result of no barrier event having occurred or otherwise), no exchange of agreed amounts will take place. You would not exercise the right if the exchange rate on the expiry date is more favourable for you than the strike price. Irrespective of whether or not you exercise the option, you will not get back the option premium you paid.</li> <li>If pre agreed it is possible to cash-settle the value of the bought FX Single Barrier Knock-In Option against a specified reference rate (fixing rate). The date and the source of the fixing rate are pre agreed.</li> <li>The market value of the bought FX Single Barrier Knock-In Option is exposed to changes in the current exchange rate between the currencies, in the market interest rates in both currencies, in the implied market volatility of the currency pair and the time to maturity.</li> <li>The bought FX Single Barrier Knock-In Option is a bilateral agreement that cannot ordinarily be terminated unilaterally by either you or Nordea. It is a product that is entered into for its term, although early termination may occur in the event of a default of either you or Nordea. The agreement between you and Nordea provides that if certain exceptional events occur (1) Nordea may make adjustments to certain products and/or (2) Nordea or you may terminate the product early. These events are specified in more detail in the agreement between you and Nordea. The product may also be terminated upon mutual agreement. The amount (if any) you receive or pay on such early termination is likely to be different from the scenarios described in this document.</li> <li>You may not be able to terminate this product even though you or Nordea have terminated or discontinued a product or a commercial flow that this product is aimed to hedge.</li> <li>Illustrative terms are set out below, which are illustrative of the terms of an bought FX Single Barrier Knock-In Option, but which do not reflect the exact terms you agree with Nordea. The exact terms will be set out in an individual trade confirmation.</li> </ul>

<b>Nominal amount</b>	532 481 EUR
<b>Currency 1</b>	EUR
<b>Currency 2</b>	USD
<b>Strike price 1</b>	1,2200 (for EUR-USD at the maturity date)
<b>Maturity date</b>	3 months from the trade date
<b>Barrier window</b>	at the expiry date (European option)
<b>Barrier level</b>	Pre-agreed, 1,25 % above the forward rate for the currency pair EUR-USD at the maturity date
<b>Option premium</b>	10.000 EUR (1,88 %)

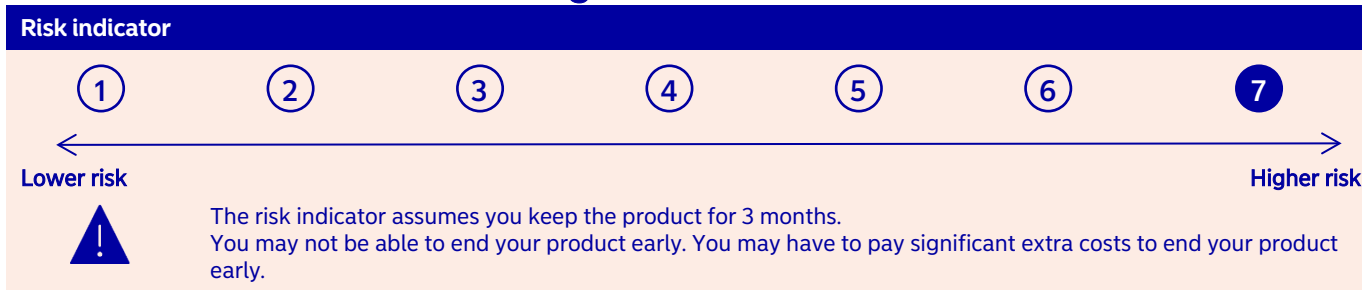

Note that the performance and cost figures presented in the sections below are based on the recommended

## Intended retail investor

holding period of this product, which is less than one year. This might impact the comparability with other products for which the figures are presented per year.

The product bought FX Single Barrier Knock-In Option is aimed at retail clients, who are interested in preservation of their capital, capital growth, hedging, leveraged participation, income and other investment objectives and who have a very short-term investment horizon of less than 1 year. The bought FX Single Barrier Knock-In Option is a product for informed investors or advanced investors.\* The investor is able and willing to bear losses up to a certain range of the investment amount and puts no moderate emphasis on capital protection. On a scale of risk ranging from 1 (very low risk tolerance; very low to low return) to 7 (very high risk tolerance; highest return) the product bought FX Single Barrier Knock-In Option falls in risk category 7.

## What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level, and poor market conditions are very unlikely to impact the capacity of Nordea Bank Abp to pay you.

When this product is combined with other products or commercial positions, the total portfolio will have a different net risk profile. This product does not include any protection from future market performance so you could incur significant losses.

If we are not able to pay you what is owed, you could incur significant losses.

## Performance scenarios

Investment 10 000 EUR\*

### Scenarios

		3 months (Recommended holding period)
<b>Stress scenario</b>	<b>What you might get back or pay after costs</b>	0 EUR
	Percentage return	-100 %
<b>Unfavourable scenario</b>	<b>What you might get back or pay after costs</b>	0 EUR
	Percentage return	-100 %
<b>Moderate scenario</b>	<b>What you might get back or pay after costs</b>	0 EUR
	Percentage return	-100 %
<b>Favourable scenario</b>	<b>What you might get back or pay after costs</b>	28 476,29 EUR
	Percentage return	1348,77 %

This table shows the money you could get back or pay over the next 3 months, under different scenarios, assuming that you invest 10 000 EUR. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where Nordea Bank Abp is not able to pay you. This product cannot be easily ended. This means it is difficult to estimate how much you would get back if you end before maturity. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

\* The calculation is based on the notional of the contract (in this example 532 481 EUR).

## What happens if Nordea Bank Abp is unable to pay out?

When buying the product you assume a credit risk on the issuer. In the event of the issuers bankruptcy, the holder of the product will have an unsecured claim versus the bank. Note that the product is not covered by any deposit guarantee scheme.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the performance of the product. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the recommended holding period. They include potential early exit penalties. The figures assume you invest 10 000 EUR. The figures are estimates and may change in the future.

\* Informed investors have average knowledge of relevant financial products and/or some financial industry experience. Advanced investors have good knowledge of relevant financial products and transactions, and/or financial industry experience or accompanied by professional investment advice or included in a discretionary portfolio service.

## Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Investment 10 000 EUR

### If you cash in at the recommended holding period

Total costs	EUR 7294,99
Impact on return (RIY)	0 %

## Composition of costs

The table below shows:

- The impact of the different types of costs on the performance of the product at the end of the recommended holding period.
- What the different cost categories mean.

### This table shows the impact on return

One-off costs	Entry costs	1,37 %	The impact of the costs you pay when entering your investment. The impact of the costs of exiting your investment when it matures.
	Exit costs	n.a.	
Ongoing costs	Portfolio transaction costs	0 %	The impact of the costs of us buying and selling underlying investments for the product. The impact of the costs that we take for managing your investments and the costs presented in Section II.
	Other ongoing costs	0 %	

## How long should I hold it and can I take money out early?

### Recommended holding period: 3 months

This product is designed for staying invested until the maturity date.

This product cannot easily be cashed in. This means that it will be difficult to estimate how much you would get back if you cash in before the redemption date. You will either be unable to cash in early or you may have to pay high costs or make a large loss if you do so.

## How can I complain?

Any complaint regarding the product or the conduct of the manufacturer or persons within Nordea advising on, or selling the product can be submitted under the following website <https://www.nordea.fi/tietoa-nordeasta/tietoa-nordeasta/palveluasiamies.html>, in written form to Nordea Bank Abp, Palveluasiamies, 2219 Household, 00020 NORDEA or via email to [palveluasiamies@nordea.com](mailto:palveluasiamies@nordea.com).

## Other relevant information

The derivative master agreement governing the product is provided to you as separately agreed. Arrangements for mitigating credit risk may also be agreed between you and Nordea when required. The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor. Nordea uses an independent external vendor to calculate the performance scenarios according to the methodology prescribed in the PRIIPs regulation and the supplementing regulatory technical standard. The methodology may cause the performance scenarios to be substantially more favourable (or less favourable) than the performance implied by Nordea's estimates, market consensus and implied market prices. Hence, Nordea's view is that an investment decision should not be based on the performance scenarios.
